RECOMMENDATIONS OF THE ABOVE WORK

" We have had frequent occasion to speak  
of the diligence, good sense, and good inten-  
tions, of Mr. Murray; and we congratulate  
him sincerely on the success of this particular  
work. We announce this edition, because the  
alterations and additions are so considerable  
that it is rendered almost a new work."

British Critic, July 1801.

" The examples which Mr. Murray has here  
selected, and the judicious reflections which  
accompany them, are such as can scarcely fail  
to make the best impressions, and to produce  
the best effects, on all who read them with at-  
tention. The present edition of this excel-  
lent publication, which has been long known  
and commended, is enlarged by the addition  
of twenty-two new characters, filling nearly  
one hundred pages."

Anti-Jacobin Review, Jan. 1804.

" We have received the tenth and last edi-  
tion of this valuable work. The improve-  
ments made in it, will appear from the author's  
advertisement. We can only add to this ac-  
count of the present useful volume, our hope  
that it will be extensively circulated among  
our countrymen."

The American Review & Literary Journal,  
for July, August & September, 1801.

" On reviewing this book, in its improved  
form, we find the facts unquestionable and  
highly interesting—the style correct and neat  
—and the general tendency of the work such  
as induces us strongly to recommend it, espe-  
cially to young readers, who love entertain-  
ment mingled with instruction."

Evangelical Magazine, Oct. 1801.

" The rapid sale of this small but valuable  
collection, has anticipated the commendation  
we are desirous to bestow. In an exemplifi-  
cation of more than seventy remarkable char-  
acters, many striking examples are exhibited  
which, in the quiet hour of reflection, man  
contribute to arrest the careless and wander-  
ing; to animate the sincere and virtuous; and  
to convince or discountenance those who have  
been unhappily led to oppose the highest  
truths."

### Alexandria Daily Gazette.

MONDAY, MARCH 27.

We are authorised to state, for the information of the voters of the senatorial district composed of the counties of Prince William and Fairfax, that *Bernard Hooe, jr.* of Prince William, will be supported at the next election, for senator for that district in the state senate.

And that *Dr. Richard Coleman* and *James H. Hooe*, of the county of Fairfax, will be voted for as members of the house delegates.

MR. SNOWDEN.

FROM a notice in your paper I find that a law is about to be carried into operation under the disguised title of making a turnpike road from Mason's causeway to the town of Alexandria, but if we for a moment reflect that this is to be done by persons living out of the county and having no interest in our concerns or prosperity it is so novel a case that the mind is involuntarily led to doubt their sincerity—and the more so when we learn that an offer has been made to the people of George-Town to join them in making a paved road on a straight line, which is perfectly practicable, but which they have in every shape rejected. The straight line connected with the Washington and Alexandria turnpike road is ten poles short of six miles to Mason's ferry, and by Adam's old mill, now Drinker's, the nearest route will be seven miles and fifty-nine poles, the course they propose running their road, for what reason we know not; but it is necessary the people of Alexandria, if they are gulled into a participation of the measure, may do it with their eyes open. Every man of reflection must know that two parallel turnpike roads and an old road which cannot be shut up except by the verdict of twelve freeholders of the vicinage, cannot be supported; of course the adventurers and promoters of one of them must have something else in view than the travel passing thro' Alexandria. The cost of one of the roads has been \$20,000 and almost all the lands and damages for passing through them has been generously given up, because one road was necessary and beneficial, but a parallel road is just as unnecessary and injurious, and of course no person can be expected to give up one cent.—now I am informed that the Washington and Alexandria Turnpike Company, where the lands were not given up, have had to pay from 75 to 140 dollars per acre, and furnish a post and rail fence on each side at one dollar per pannel of nine feet; and the present law requires that the jury shall value the lands, and all the damages the owners thereof shall sustain, by opening the road through such land, therefore the least damage the owner can sustain is a good post and rail fence on each side. Suppose the road to be 7 miles and 59 poles long, and 80 feet wide, it will take 67 and 3-4 acres and 11-16 parts of an acre of ground, for seven miles, which at \$100 per acre, is \$6775 and a fraction, and a fence on each side at one dollar per pannel of nine feet, 8218 pannels, or 8218 dollars, which added to \$6775 the price of the land, will make the sum of \$14993. For the privilege of making the road, before the road itself or a bridge over Four Mile creek is brought into calculation, which at a moderate calculation must average \$3000 per mile, making the sum of \$35,993 for seven miles of road, when the fact is 2 1-12 miles will intersect the present road in a straight line, without bridging or paying for lands or fencing—and if a person can figure to themselves the idea of deriving an interest in such an undertaking, they must be some of those strange beings travelling from their homes and preferring other peoples interest, almost, not quite their own something like those of Georgetown. A LOOKER ON.

From the Boston Centinel.

We have seen the votes in 64 towns in New Hampshire; which give the following result:

For Judge Smith, 6038  
For Gov. Langdon, 6250  
These are principally from verbal information. In the same towns last November for electors, the votes were, Federal 5907—Democratic 5347.

P. S. Since preparing the above statement, we have received the votes given in several towns; these with our letters, assure us, that if the upper counties have done on this election as they did in that of November last, Judge Smith will be elected Governor by a majority of about 1000 votes. Our letters add, that "federal representatives had been chosen in nine towns we have heard from represented by democrats last year; and it is highly probable there will be a federal house."

The following sentiments from Mr. Burke's speech on American taxation, as stated in Bisset's reign of George III. are so truly descriptive of the jacobin theories of the present day, that we should suppose that they were written with the spirit of prophecy, and intended to apply to the present crisis of affairs in America, did we not know that *torics* will be *torics*, whether headed by a lord North or a member of the legion of honor.

"Mr. Edmund Burke delivered a speech on American taxation, which renders this motion (repealing the duty on tea) an epoch in philosophical and political eloquence. His ground of argument was EXPEDIENCE PROVED FROM EXPERIENCE. He traced the history of the American colonies from their first settlement to the commencement of the present reign, demonstrating the advantages of the former policy. The measures of the present ministry were, he said, a deviation from that system. Never have the servants of the state looked at the whole of your complicated interests in one connected view.—They have taken things by bits and scraps just as they pressed, without regard to their relations and dependencies: they never had a system right or wrong, but only occasionally have invented some miserable tale of day, in order meanly to sneak out of the difficulties into which they had proudly strutted." Vol. 3. p. 159-60.

The whole history of lord North's administration and the arguments for and against attempting to tax America without her consent, and against the spirit of the constitution, and in violation of the rights of Englishmen presents cases parallel and arguments similar to those which have occurred under the *tory* administration of Mr. Jefferson.

[U. S. Gaz.]

Capture of *Martinique*.—Capt. Moss arrived at Charleston, on the 19th inst. in 11 days from St. Bartholemews, informs, that shortly before he left that place certain intelligence had been received of the surrender of the island of Martinique to the British arms. It is stated, that early in the month of February, the British carried, by storm, the important post of Windmill-Hill, which in some measure commands Fort Bourbon, the old batteries at this place were strengthened and new ones thrown up—on the 18th of February these batteries were opened upon the fort and on the 25th the French commander capitulated. It is also stated, that the surrender of the fort was accelerated by the accidental explosion of the powder magazine, which also destroyed the water cistern. The British troops were commanded by gen. Beckwith. There was but one French frigate at Fort Royal, and she was destroyed before the surrender of the place—her commander has been previously killed by the explosion of a bomb. A sloop of war was immediately despatched for England with an account of the surrender of the island.

The Diamond frigate had arrived at St. Christophers in a short passage from Cadiz—it was reported that the British and Spanish had defeated the French, and retaken Madrid, but nothing certain had transpired. It was also reported that the Rochfort squadron were at sea.

RAN AWAY, on the 12th instant, from the estate of the late Nathaniel Newton, near Piscataway, in Prince-George's county, Maryland, a negro man, named FRANK, about 20 years of age, yellowish complexion, and about six feet high—had on when he went away, a short white jacket, dark cloth trousers, and Oznabrigs shirt. ## HAMILTON'S ELIXIR FOR COUGHS.

THE increasing reputation of Hamilton's Elixir (which during the last nine years has become celebrated throughout the U. S.) warrants the assertion that it is the best remedy now in use, for Colds, obstinate Coughs, Asthmas and approaching Consumptions. Experience has taught thousands, that the common opiates and balsamics, as they are called, finally aggravate every disorder of the breast and lungs, in the most distressing symptoms, that they load the stomach and impair the digestion, inflame the whole system, increase the difficulty of breathing and excite fever. But the qualities of this valuable discovery are evinced by perfectly opposite effects.

A single trial will prove that it restores the determination of the fluids to the surface of the body, and brings on the common healthful perspiration; that it dislodges and evacuates the tough viscid phlegm or mucus, strengthens the weakened vessels of the lungs, sheathes the acrimonious liquor which irritates them, and finally discharges it. Thus striking at the root of the disorder the symptoms are effectually and permanently conquered, the reverse of common medicine which weakens the constitution and gives strength to the disorder, for the sake of moderating for the present some of its painful effects.

To parents who have children afflicted with the whooping cough, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable. The Elixir is perfectly agreeable, and the dose so small, that no difficulty arises in taking it.

### Select Recommendations.

Philadelphia, August 9, 1806.

Mrs. H. Lee, widow of Richard Lee, jr. Being desirous to make public for the good of others the excellent quality of Hamilton's Elixir, prepared by the late Mr. Lee, I have sent you the following account of the benefit I have received from it; which I hope will induce others to give it a trial. In consequence of a bruise on the breast received from a fall, my health grew bad, my breathing became very difficult, and frequently I have had suddenly to rise up in my bed with all the horrors of immediate suffocation. Add to these, a constant pain in my breast, and a cough, a great loss of strength and flesh, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, but without giving me any relief. Another physician, who knew me and the circumstances of my case, advised me to give Hamilton's Elixir a trial, saying, he had used it in his practice, and always found it do much good. A bottle was procured from Mr. Birch's and I found relief before I had taken half of it. I continued to use it, and was soon strong enough to attend to business. On taking cold some of my former symptoms return, but are always removed by a dose or two of the Elixir.

GEO. BENNER, junior,

No. 11, Budd-street, Philadelphia.

Mr. Charles Myers, Hamstead-Hill, near Baltimore, had been a long time dangerously indisposed, and was reduced to the lowest state of weakness, inasmuch that his recovery appeared extremely doubtful. His complaints which seemed to be affections of the breast and lungs, and general debility occasioned thereby, yielded little, but rather progressed under the treatment of several eminent physicians; when by the use of Hamilton's Elixir, his distressing cough was immediately alleviated, and every other symptom perfectly subdued. Four or five bottles entirely removed his complaints and restored him to an excellent state of health and strength, which he has for upwards of a year past, enjoyed without interruption.

From Luther Martin, esq. late attorney general of Maryland.

I comply with your request in stating my opinion of Hamilton's Elixir. It has been used in my family for two or three years past, with uniform success, whenever coughs, colds, or similar complaints have rendered medicine necessary. I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness, and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend Hamilton's Elixir as a valuable medicine, and deserving public attention.

LUTHER MARTIN.
